February 18 , 2021

Township of Pequannock

RE: Steimel/16140
126 Newark Pompton Turnpike
Pequannock, N.J.

Storm Water Surface Management

Existing Storm water drains to the existing Inlet grate on the site and discharges to the Drainage Ditch to the north. No Proposed change to the Drainage pattern.

Drainage Calculations:

Existing Impervious coverage = 5,770 Sq. Ft.

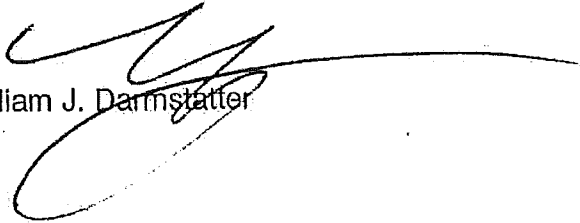

Proposed Impervious coverage = 5,616 Sq. Ft.

Decease = 154 Sq. Ft. (less than 10,800 Sq. Ft.)

Area of Disturbance = 0.037 Acres (less than 1.0 Acres)

No Drainage Required.

Very Truly Yours
